

Assembly Instructions for Semi-flush Light:

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Thread the top assembly (A), the glass panel (B), the center tube (D) and the socket assembly (E) as shown. Tighten until snug.
4. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
5. Place the glass shade (F) over the base (G).
6. Confirm that the holes on the top assembly (A) align with the mounting holes on the base (G). Pass the finial (C) through holes of the top assembly (A) and thread into the mounting holes on the steel ring (G). Hand-tighten until snug.
7. Refer to the additional installation instructions included with the product for wiring and installation.
8. Restore power to the installation point and retain this sheet for future reference.
